- Leetcode

PROFILE

I'm a passionate Flutter developer with expertise in Flutter, Firebase, Android, and Web App development. I turn ideas into polished, user-friendly applications and thrive on solving DSA problems with Java. As a UI/UX designer, I use Figma to create seamless interfaces and interactive prototypes. I'm always eager to learn and expand my skills.

PROJECTS

EXPENSE TRACKER

Android Application

An expense tracking app that helps you manage finances with a seamless dashboard, offering an overview of income, expenses, and customizable categories.
- Skills : Flutter, Firebase, Bloc

TO DO APP
